

To whom It May Concern,I am writing today to let you know that I oppose NAB's petition 04-160 and I urge you to reject this petition. I believe in America and America's way of doing business. competition should be a welcome thing. It encourages business to be competitive and allows the consumer to benefit in the form of lower cost and more and better services. Although I live in an area that does not presently have satellite weather and traffic services, one of the reasons that I bought a satellite radio is so that I could listen to programming as I travel across the USA. Having up to date weather information is very handy in planning my daily trips.

Once again I urge you to reject NAB's petition 04-160.
